

MY FATHER IS MY HERO

My father is the best in my family. He is my life. He always brings everything I want. He always make my dream come true. He will be so friendly with me. He is so cool. He keeps me happy always. He is so special to me. My dad is great. He is the best dad in the world. He cared me so much and that love will be forever.

During covid 19 which was very hard time we were all in the home. I used to play with my father during lockdown. And we used to fly kites and that was so fun and I was happy. So my father was happy by seeing my happiness. So I felt very happy that my happiness is his happiness too. In lockdown I was so sad and board but he kept me happy and he made so much of fun work to me.

He has a strength that is he always keeps me happy and he is my strength. There are no words to say. But he is the best father in the world. I am lucky dad for having you. My gift is I love you dad. This is my gift to you dad for father's day. Dad I wish you a happy fathers day. You are my hero and you will be my hero.
