Topic:- Essay on music

Music is a part of all of our lives, from when we're growing up to when we're old. We grow up to the sound of our mother singing us lullabies so that we'd go to sleep. Music is one of the most calming thing. Music is not only created by people, but it is also all around us in nature. In the mornings, when the crickets and the birds chirp, it is music. The loud sound of the waves in the ocean swishing, the whistle in the wind, and the sound sound of tree and leaves rustling are all their own form of music.

Happy Music Day
