Happy Father's Day

ALL ABOUT MY FATHER

My dad is my first friend in life. I love my Dad very much. There has not been even a single day where he has not thought about us. My dad takes a lot of care to make sure we are hail and healthy. If we are sick, he stumbles and keeps worrying until we are fine again. Only in those times I have realized the true affection he has on us. Only a few people in our life help us so that we can lead a happy life. But a father is the only person who works hard for the goodness of the family. If there can be a Super Hero in this world, it is my Dad and there is no one who can replace him.

THE SPECIAL BOND BETWEEN DAUGHTER AND FATHER..

A girl develops confidence and self-esteem if she has a good bond with her father....girls have a better career because of the early influence of their father they become more successful and achievement- oriented.... A loving father makes his daughter feel good about herself as he helps her during every stage of her life....
